ADDENDUM NO. 1

155th Street Culvert
Project #18-260-202

All plan holders are hereby notified and agree by signature below, that the bid includes consideration of the following changes, amendments, and/or clarifications and costs associated with these changes and are included in the bid.

Addendum No. 1 - Question, clarification and addition of revised bid tab

1. Question: Can a precast culvert be used instead of a cast-in-place culvert?

Response: The City will accept alternate bids for a precast solution for the bridge culvert. The submitted substitution must be completed with shop drawing and a narrative on how they plan to accomplish the substitution. The culvert must include joint couplers (i.e. Pennsylvania Inserts) to join each section.

2. Addition of alternate Appendix A Item X

Alternate 1: Allow for substitution of the cast in place box with a precast box. The alternate must have a narrative on how it would be installed. Also the precast product must have joint couplers (i.e. Pennsylvania inserts) to joint the units.

3. Revised Bid Proposal Form E attached.

Any other questions regarding this proposal shall be submitted to Kim Quade, CPPB by e-mail at kquade@raymore.com or by phone at (816) 892-3045. There will be no questions allowed after April 9, 2018 at 5 p.m.

I hereby certify that the above have been considered and associated costs have been included in this bid.
